

The other day we sent out  
Our honored City Dads,  
An offer made in black and white  
To print the city "ads."  
And then and there a threatening storm  
Seemed lowering like a pall;  
Like pilot fish before the shark  
"O. B." set up a squall.

The wheat in this county is looking well.

It looks like "O. B." has been writing part of the council proceedings for the Republican.

Mr. CHARLES P. SHOCKLEY lost a valuable cow yesterday by its falling down an embankment near his residence. Its neck was broken.

THOMAS CUMMINS was ordered sent back to the penitentiary this morning, Judge Cole having overruled all motions made in the case.

Mr. THOS. A. DAVIS, of Cincinnati, has sold his interest in the printing business to his partner, but expects to establish himself in another office soon.

At the last meeting of the directors of the Masonic Benefit Association of this city, Mr. W. H. Ambrose, was appointed traveling agent to secure members for the organization.

We are prepared to prove that it only charges some customers \$4 for one inch space for one year, while it proposes the city shall pay the same amount for one inch, two months, and this under regular contract.—Republican.

That is not true. The Republican is invited to produce its alleged proof.

A SMALL boy in East Maysville, Friday afternoon, tried the experiment of raising steam in a corked bottle by heating it on a stove. As a consequence one of his companions was seriously hurt by the explosion of his glass boiler.

Mr. T. C. H. VANCE, general manager of the United States Electric Light Company, is in the city for the purpose of meeting the gentlemen who are interested in the project of introducing that light in Maysville. He has just finished putting up the light at several prominent places at Indianapolis, where it has given perfect satisfaction.

We trust that the public will not be deceived by the misrepresentations of the Republican. Our proposition was to do the city advertising at the same price the weekly papers charge and to give the city free of charge the use of the columns of the daily. The weekly circulation of both papers is now 5,385 copies and it is steadily increasing.

The queensware and jewelry business of the late R. Albert is to be continued by his daughter, Miss Annie F. Albert, who will be assisted by Messrs. Ricketts and Ballenger, who have been so long connected with the establishment. The stock on hand is large, and embraces everything in the line, while the prices have been made very low. The public is invited to call.

The ladies will find at Miss Lou. Powling's millinery establishment a very attractive assortment of hats, bonnets, ribbons, flowers and trimmings of the latest spring styles. The stock has just been received and will be found to embrace all the novelties of the present season. She considers it no trouble to show goods and will be pleased to have the ladies call and look at the stock.

"THE BULLETIN proposes but the council will dispose of a very cheeky proposition" says the Republican. Does that paper presume to speak for the city council? Has it any particular claim upon that body that it is authorized to announce in advance what its action will be, upon a respectful proposition from citizens of Maysville? If the Republican speaks by authority, we enter our protest against having the subject matter of our petition prejudged.

Mr. F. H. TRAXEL, one of the most obliging and justly popular bakers and confectioners in the city, announces elsewhere that his ice cream parlors are open for the season. He is a manufacturer of absolutely pure candy and warrants it to be such. He also makes a specialty of supplying parties and wedding, promptly and on the most satisfactory terms. Fresh bread and cakes of all kinds he keeps constantly in stock and will deliver them in any part of the city at short notice. The public is certain of receiving polite and prompt attention at his establishment.

### The City Advertising.

The proposition made by the BULLETIN to print the city advertisements was a square business proposal, and one that the council ought to accept if it desires to give a wider publicity to the ordinances and to do it at a less cost than heretofore. We are printing a daily and weekly paper that now has a weekly circulation of 5,385 copies. We offered to print the city's advertisements in both of these papers at the rates charged by the weekly, and to give the city the benefit of the daily free of charge.

That is what we proposed to do and nothing more. The paper belongs to its publishers and they the right to give away its columns if they feel so disposed, no matter if it does arouse the bile of the Republican, or of a little tin god in the council, or of the great and only "O. B." himself. The proposition we have made has been referred to the Committee on Propositions and Grievances, and as it is a matter of dollars and cents to the taxpayers of this city, we are very certain it will receive respectful consideration.

### The Churches.

Services as usual at St. Patrick's Church to-morrow.

The Southern Presbyterian congregation will hold no services to-morrow.

Rev. S. B. Alderson will preach at the Third street Presbyterian Church to-morrow morning and evening. Morning subject: "Money Making." Evening subject: "Achievements of Christ."

Rev. A. N. Gilbert will preach at the Christian Church to-morrow morning on the subject, "What is Conversion." At night the next of the series of popular lectures will be given, the special subject being "The Responsibility of Parents for the Physical, Mental and Moral Training of their Children."

There will be services at the M. E. Church to-morrow by Rev. M. D. Reynolds, the pastor. Morning subject: "The Conflict of Will and Passion." At night the subject will be "Is Christianity a Failure?" Text the language of Jeremiah: "Is there no balm in Gilead? Is there no physician there? Why then is not the health of the daughter of my people secured?"

### Important.

The stock of buggies, baronches etc., and farming machinery generally at Myall, Riley & Porter's agricultural depot this season is unusually large and to reduce it they will, for the next thirty days, offer bargains never before heard of in Maysville. The entire stock is from the establishments of leading manufacturers and cannot be duplicated anywhere in the United States at the prices that will be offered for the next four weeks. The people from the country who will be in town on Monday are invited to call and examine the stock whether they desire to buy or not. A visit to this establishment will amply repay the trouble.

### Barrett & Co.'s Circus.

This circus and menagerie which is to pitch tents here next Monday has lately exhibited at Ashland and is thus noticed by the Independent: "It is one of the few that has and does all the things it advertises. The street pageant was very fine, and in addition to the fine wagons and bands, as well as the fine horses, there were three elephants and twelve camels in the procession. The men in charge are courteous gentlemen who make a good impression on those with whom they come in contact or with whom they do business."

### Accidental Insurance.

Reader, a policy in the Traveler's Accidental Insurance Company will not prevent an accident from happening, but it will guarantee from \$1,000 to \$10,000, in case of death from accident or from \$5 to \$50, a week in case of disability from accident. You insure your property against fire; why not insure yourself against accidents. Annual policies cheap. \$3,000 tickets at 25 cents a day—insured for any length of time—thirty days for \$4.50. M. F. MARSH, Agent, Library Building, Sutton street.

At the regular monthly meeting of the Amazon Fire Company, held at their hall last night, the following officers were elected for the term of six months:

President—Newto Rudy.  
Vice President—Robert Tudor.  
Secretary—George Fleming.  
Messenger—Lewis Shaffer.  
First Director of Engine—Clint. Franklin.  
Chief of Hose—James Hise.  
Second Director of Hose—Wm. Conrad.  
First Engineer—Dan. Shaffer.  
Second Engineer—Wm. Conrad.  
Third Engineer—W. S. Sickley.  
Fourth Engineer—Wm. Lynch.  
Chairman of the Standing Committee—W. Conrad.  
Sick Committee—Newton, Rudy, Robert Tudor and George Fleming.

### PERSONALS.

Dr. Samuel Brough, of Helena, left last night, on a trip to New Orleans and along the Gulf of Mexico.

In the Circuit Court this morning a motion for a new trial was made by defendant in the case of the Commonwealth vs. George Cooper. The motion was argued and a new trial granted.

Is there anything very "cheeky" in the proposition to print the city advertisements in 5,385 papers each week at the same price the Republican asks for printing them in 1,600 papers? We pause for an answer.

MESSRS. BOYD & BRO., of Levanna, O., are building for the United States four large barges, which are to be fitted with wire weaving machinery, and used in connection with the construction of dams on the Mississippi river. They are 130 feet long and 30 feet wide, and contain 150,000 feet of oak lumber. The cost of each is \$8,000. They are the first boats of the kind ever used by the Government, and as it was necessary they should be unusually well built the contract was given to the Messrs. Boyd.

### COUNTY POINTS.

#### STONE LICK.

W. T. Calvert lost a valuable cow. Cause, clover.

Miss Ella Shipley, after a protracted illness, is slowly recovered.

Mr. Shipley has been fifteen years old, has been moved seven times, once beyond Lexington and return. The last eggs she laid were used to make Mr. Shipley's wedding cake. She was owned by his father.

Mr. W. H. Wadsworth asked a juror during the last court something with regard to his faith, and the court would not allow an answer. Said juror wanted to say for the benefit of the honorable gentleman that he believed in the "wot," that Christ pronounced against "all lawyers, Pharisees and hypocrites, they shall have their part in the lake of fire forever."

Our new meeting house is to be let out to contractors. May the good work go on (converting souls) until words shall be beaten into plow shears and spears into pruning hooks, and the people learn the art of truth, telling and tongue of the slanderer be as silent as the grave.

Mr. Thomas L. Best sold a fine young horse at Lexington, last week, for \$75. He thinks it is better to sell at home.

A husband remarked to his wife the other day that if he was as ugly as she was he would go out and hang himself, whereupon the wife retorted that "if I was as worthless as you, I would go to the river, load up my arms, jump in and say, 'Here goes nothing.'"

A juror on being asked how they brought in such a verdict, exclaimed: "I don't know, it was a mixed up piece of business."

Elder Riley, of Maysville, is on his road to Texas to attend a religious convention.

The "constantly tired-out" feeling so often experienced is the result of impoverished blood and consequent enfeebled vitality. Ayer's Sarsaparilla feeds and enriches the blood, increases the appetite, and promotes digestion of the food and the assimilation of its strengthening qualities. The system being thus invigorated, the feeling rapidly changes to a grateful sense of strength and energy.

### Parasols.
